A small FAQ

Question 2. Why is reaction **r3** needed, given that **r4** produces **OP_{BkL-Bcd}** anyway? Answer: since more **OP_{BkL-Bcd}** is produced this way.

Question 3. Is **Akb** input from context needed, since **Akb** can also be produced from **Thr** (**r9**)? Answer: yes since external pathways can produce it too.
